PROFILE

Technical business developer and account manager who bridges software products into new markets. Native Arabic, C2 English, B2 Russian — I speak directly to clients across MENA, the GCC, CIS and English-speaking markets. With a software-engineering background I understand the product, run demos, turn client needs into clear requirements, and own the relationship end to end. Ideal for teams expanding into the Arab or Russian-speaking markets. Remote worldwide; open to relocation.

SELECTED HIGHLIGHTS

- **Trilingual** — Arabic (native), English (C2), Russian (B2): sell and support directly across MENA, the GCC, CIS and English-speaking markets.
- **Engineering background** — I speak the product's language, run technical demos, and translate client needs into requirements engineers can build.
- Ran the full client lifecycle on freelance projects: discovery, requirements (SRS), proposal, delivery and handover.
- Deep **MENA/Gulf market** knowledge — Saudi ZATCA e-invoicing, Arabic/RTL products, regional compliance.
- Led teams of up to **10** and owned project budgets — comfortable with stakeholders, timelines and numbers.

SKILLS

Business development: Lead qualification, discovery calls, demos, proposals, pipeline, market entry (MENA/GCC/CIS)

Account management: Client relationship ownership, onboarding, requirements, stakeholder communication, retention

Technical fluency: SaaS, APIs, full-stack products, ERP, e-commerce, AI — I understand and demo what I sell

Languages: Arabic — native • English — C2, full professional • Russian — B2

Also: Requirements/SRS, agile, localization (Arabic/English RTL, ZATCA), team leadership up to 10

EXPERIENCE

Technical Owner / Client-Facing Delivery | HMS

January 2024 — Present

- Own the corporate web product and the relationship with internal stakeholders — gather requirements, align priorities, demo progress, deliver releases.

Product Delivery Owner | AuraGift

January 2024 — Present

- Own client-facing delivery and UX of a live e-commerce product, from requirements through QA to production.

Technical Project Manager / Client Lead | Freelance

June 2022 — Present

- Single point of contact between client and delivery — discovery calls, requirements (SRS), proposals and handover.
- Led a team of 10 on a ~\$13,000 project over 11 months.

Technical Project Lead | HMS

January 2023 — June 2023

- Led a team of 8 and a ~\$10,000 budget; coordinated stakeholders, schedule and delivery.

Media Team Lead | Resala Charity Organization, Egypt

January 2020 — December 2020

- Led the media function at one of Egypt's largest charities; completed a six-month leadership and management programme.

PRODUCTS I DELIVERED (UNDERSTAND & DEMO)

- **HMS — Multi-Tenant ERP** — inventory, sales/CRM, finance; Saudi ZATCA e-invoicing and Arabic/English RTL. Built for a regional market.
- **AuraGift — Live E-Commerce** — a premium digital-gifting platform in production, client side and UX.
- **Fracture Detection AI** — a shipped AI product (90.21% accuracy) delivered as an app and a Telegram bot.

EDUCATION

Bachelor — Computer Science & Engineering, Tomsk State University of Control Systems and Radioelectronics (TUSUR) • 2026 • Unreal Engine course author (Udemy, 2024) • Digital Marketing (Google, 2021)
