PROFILE

Software engineer and technical project lead with 6+ years across engineering, delivery and product. I run products through the full cycle — requirements, architecture, build, test, release — and have led teams of up to 10 while owning the project budget. Available on-site, remotely or hybrid, and open to business trips.

SELECTED HIGHLIGHTS

- Led a team of **10** on an AI logistics system with a budget of about **\$13,000** over 11 months.
- Led a team of **8** on a corporate web product and independently managed a budget of about **\$10,000**.
- Shipped a published medical-imaging AI product: 90.21% accuracy, Grad-CAM explanations, Streamlit app and Telegram bot.
- Built a 400-lane logistics digital twin modelling ~96,400 items/hour, with 530+ automated tests.
- Published 3 Android titles (5,000+ downloads) and authored an Unreal Engine course on Udemy.

SKILLS

Engineering	Python, Flutter/Dart, C++, C#, SQL, REST API, Docker, Git, PyTorch, OpenCV, Unreal Engine
AI / ML	Computer vision, explainable AI, reinforcement learning, LLM tooling, ML integration
Delivery	Agile, Scrum, Kanban, requirements analysis, SRS, user stories, backlog, risk, release management
Leadership	Team leadership up to 10, budget ownership, stakeholder communication, technical decisions

EXPERIENCE

Full-Stack Developer / Technical Owner | HMS

January 2024 — Present

- Own the corporate web product end to end — requirements from stakeholders, architecture, front and back end, release and support.

Full-Stack Developer / Product Delivery Owner | AuraGift

January 2024 — Present

- Own the client side and UX of a live premium e-commerce platform; repeatable Firebase deployments with no downtime.

Technical Project Manager / Product Engineer | Freelance

June 2022 — Present

- Single point of accountability from discovery and SRS through architecture, build and handover.
- Led a team of 10 on an AI logistics system, ~\$13,000 budget, 11 months.

Technical Project Lead / Full-Stack Developer | HMS

January 2023 — June 2023

- Led a team of 8 and managed a ~\$10,000 budget while contributing to the build.

Unreal Engine Developer / Independent Product Owner | Indie

January 2020 — Present

- Networked multiplayer with server authority and cloud player data; 3 published Android titles.

Media Team Lead | Resala Charity Organization, Egypt

January 2020 — December 2020

- Led the media function; completed a six-month leadership and management programme.

KEY PROJECTS

- **Fracture Detection AI** — EfficientNet-B0 + Grad-CAM on 4,083 X-rays; 90.21% accuracy. Research software, not a certified medical device.
- **High-Throughput Sorting-Center Digital Twin** — discrete-event simulation, PPO routing, multi-agent CTDE, 530+ tests.
- **Strict Drone Safe-RL** — PPO/LSTM under domain randomisation and fault injection. Simulation and research platform only.

EDUCATION

Bachelor — Computer Science & Engineering, Tomsk State University of Control Systems and Radioelectronics (TUSUR) · 2026 •
Unreal Engine course author (Udemy, 2024) • Digital Marketing (Google, 2021)

LANGUAGES

Arabic — Native • **English** — C2, full professional • **Russian** — B2, upper-intermediate
